**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 1-40 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claims 1 and 16, for example, which include, a projection type image display apparatus having a color filter, a spiral lens disk that alters the paths of the light beams that have passed the color while turning and periodically scrolls the light beams by rotational movement and spiral lens disk has a spiral cylindrical lens array at least one surface, and a beam splitter splits the light beams from the color filter to enter the at least two effective regions of the spiral lens disk.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
